EXPERIENCE

Data Analytics & BI Attaché

May 11 – Jul 31, 2026

Swahilipot Hub Foundation, Mombasa, Kenya

- Built reporting pipelines in Python/Pandas → MySQL → Power BI (DAX) for internal BI use
- Found live database credentials exposed in a public repository; rotated the passwords and moved secrets into environment variables
- Worked on internal tooling in React, Vite and Tailwind CSS alongside the data work
- Wrote documentation and report drafts for other attachés

PROJECTS

Ecommerce Sales & Profitability

- Power BI dashboard over 2018 sales data: KES 438K revenue, 37K profit, 6K units, split by state, product category and payment method

Customer Shopping Behaviour

- Full workflow from cleaned CSV through SQL analysis, Power BI visualisation and a stakeholder presentation

Employee Salary & Headcount

- Python/Pandas → MySQL → Power BI; surfaced Nairobi as the highest-paying city (KES 72,500 average) against Nakuru's lowest (KES 48,000), and KES 554,500 total payroll

Book Store Scraper

- Requests, BeautifulSoup, Pandas and SQLAlchemy pulling a live e-commerce site into MySQL

ImpactHub Foundation

- Donor and partnership site with donation flows, automated email and an Express/Firebase back end

Personal Portfolio

- React, Vite and Tailwind, deployed to GitHub Pages with a working contact form
